Digital BIAN Global Summit

Hans Tesselaar
Executive Director
June 1st, 2022

BIAN
Banking Industry Architecture Network

BIAN's Mission

To provide the world with the best banking architecture. To be the banking technology standard. The Central objective is to support the banking business/clients with high performance and security.

One of the key objectives for IT in the banking industry is to help banks lower IT and operational costs and mitigate the risks associated with technology innovation.

To provide a trusted roadmap for constant innovation. We create best practice architecture that the world's banks can rely upon 100%. To gather the best minds in banking architecture for the world to share in an open way.

By collaborating and sharing in an open way, the best expertise across our global ecosystem of leading banks, technology providers, FinTech players, academics and consultants to define a revolutionary banking technology framework that standardizes and simplifies the overall banking architecture.

Challenges integrating external systems and products top the list of challenges to core banking modernization efforts.

What are the top three challenges facing your organization in its core banking modernization efforts?
